

# PROTECT YOUR CAR FROM THEFT

*The Patented Australian made **OKal Sentry Bollards** range provides controlled vehicle access, parking security and property protection. The Sentries illustrated are extremely functional, in providing private bay access control for car owners where parking is at a premium, such as Retirement Villages and Strata Titled Units and the other also for the prevention of damage to property.*

- OKal Lock-in Sentries are an easily installed carport theft deterrent with a yield force of up to 700kgs. Mounted immediately behind your car this tough bollard is removable from its fixed base plate to provide vehicle access and when left in place, protects your car and carport.

**From \$209 +GST**

- OKal Manual Retractable Sentries can withstand a yield force of up to 5 tonnes and are ideal for vehicle theft protection, warehouse gate and roller door ram-raid protection. Locks up for theft protection and damage control - and down for vehicle and pedestrian access.

**From \$419 + GST**

At OKal we have spent more than 10 years developing our Patented range of Australian Made manual and automatic retractable bollards and Lock-In Sentry Bollards.
